AMI NEWS

Follow us!

Like the angle of a Detroit Red Wings hockey stick, AMI Strategies is on the grow 📈

AMI Strategies recently purchased Q3, a ServiceNow partner that specializes in ITAM (IT Asset Management), giving AMI's list of clients access to ServiceNow's capabilities. Are you deploying? Or, do you already own licenses to ServiceNow? How do you plan to execute your projects?

Come slap shot a hockey puck with us— [contact us today!](#)

North, South, East, **West** ✨

Welcome to beautiful **Denver, Colorado**- AMI's newest venture in the Western United States. Through the expansion of operations in Denver, the AMI team is conquering the West- and we'll get along great until the Detroit Red Wings meet the Colorado Avalanche ;)

Did you say newest edition to AMI's line up?

Like our brand new Little Caesar's Arena, AMI's temNOW system has a brand-new auditing component called Smart Audit.

Here's a quick Q & A with AMI's Vice President David Boonie

Q1: What's AMI's Smart Audit?

SmartAudit is an auditing process that uses a holistic approach to understand what has changed in an invoice and why it has changed. It applies contextual intelligence when analyzing the various parts of an invoice to target unique anomalies, trends and conditions.

Q2: When is it available?

First production release will be end of December 2017

Q3: Hello... I thought you already audited invoices?

Of course we do! Like Detroit is Hockeytown, AMI is Audittown. The Smart Audit platform is AMI's next generation of auditing automation.

How many legs does an octopus have??

Well, technically an octopus has 6 arms and two legs, and their other tentacles are used to propel them. So, what does an octopus and AMI have in common?

AMI's **Import**, **Audit**, and **Report** program is designed to *propel savings* for our clients by auditing invoices, recovering credits, and reporting on savings with real-time data. [Save some squid today!](#)

Mobility Help Desk 

With advancements in technology and mobile devices, AMI's Mobility Help Desk works with clients to ensure that all mobility needs are met, including IoT; from ordering new devices, tracking the delivery of the device, or fixing broken ones, the AMI team handles issues and orders in a timely manner- and you have the benefit of being able to talk to one of our amazing client advocates.

Can't wait to chat? Contact eparks@amistrategies.com or call us at 1-866-264-8870 to talk to one of our client advocates.

Get the puck in the net!

AMI is proud to announce our adoption of the human center design concept. This three-tier process is crucial for implementing human center design:

- 1.) Inspiration phase: learn from the people you're designing for.
- 2.) Ideation phase: making sense of what you learned and prototype solutions.
- 3.) Implementation phase: bring the solution to life and the market.

By having a human center design mindset, the AMI team brings a constant flow of new ideas to life- and to our clients- lets score some goals together- come be creative with us [today](#).

MCWT Roaring '20s

AMI was a sponsor for the [Michigan Council of Women in Technology](#) Roaring '20s Gala this year. Over **\$400,000** was raised to continue to help women in IT and STEM programs. Their vision is to make Michigan the No.1 state for women in technology. To learn more about the MCWT and their mission, or how to get involved, [click here](#).
